Dr. Ge. Engelmann

My dear Sir:

I forward
by steamer of June 10th a box
packed by Mr. Bolander for you &
left here by him on his departure
for Mendocino & Humboldt Counties.
Should any thing about from there,
I have prepaid the freight to
N.Y. ($13.87 gold) which am
sorry as I could lay on this side.
Please let me know the charges
from N.Y. to St. Louis.

Liberal bargains
Liver The box for by Adams
Express & I course will arrive
at N.Y. by the next steamer
after the on which takes

This to you. Mr. Blanchard has just left for the north where I presume he will make collections, especially of Cryptogams. He expects to be absent a month or 2. If Kellogg is going to Russian America & will, I shall buy back a goodly portion of plants from that region.

Yr. Ob.

Dr Geo. Engelmann M.D.

My dear Sir:

I take
pleasure in introducing to you
Mr. R. D. Cotter, who has been
for several years on the Coast
Survey connected with our Geological
Survey & with the W. U. Tele-
graph Co. He can tell you
much of California & Russian
America. I have no doubt
that you will be pleased to
make his acquaintance

Very truly Yours
J. D. Whitney

Dr. S. Engelmann:

My dear Sir:

As I believe you are pretty well acquainted with Botanists, Gray, Brewer & others with the character of the Botanical Survey of California, & that, as a man of Science, you feel an interest in my efforts to prevent the results of our work from being lost, I take the liberty of asking you to aid me in trying to save something from the wreck made by the last Legislature, & likely to be endorsed by this, unless strong efforts are made to prevent it.

My views on the Legislature which the expression of

P.S. I propose to visit you in a few days in regard to the measurements in the Rocky Mts. last summer.

opinion from eminent scientific men the other side of the mountains will be of value in rebutting the charges made against me that the survey is a failure, that it has accomplished nothing and that I am incompetent to it, the real record of the position being in the fact that they are unable to use me as a tool for furthering their swindling schemes.

If you feel disposed to assist in the first Church in making it, & not serve the survey, at least can some of the results already attained & in process of publication, I would be much obliged to you if you would address a letter to "Hon E. Tompkins, Senator, Sacramento Cal", in your capacity as Pres't of the St Louis Academy, endorsing the survey as strongly as you conscientiously can & also allow.

Yours truly
J. D. Whitney

San Francisco
Dec 14 1871.

Dr. Gen. Engelmann

My dear Sir: Your favor of 4th
ult. is just received.

If your brother comes on here,
I will do my best to put him in communi-
cation with Mining men here; although,
owing to my official position here, I can
not be very cautious in not mentioning
your brother well & reputation as having been
long engaged on the Illinois Levee, but as,
I can not the advantage of his personal
acquaintance, I cannot of course put that
confidence in putting him forward that I
should otherwise have. As your brother, I will
give me much pleasure to render assistance
to him in establishing himself here, or
in making a visit here to form an acquaintance
with Californian ways of doing things. Not
having at present any acquaintance at Lake
City, the only thing I know of in the County for the pres-
ent, I do not see how I can render him
any service there.

I did not establish my

barometrical stations at Denver for two reasons:
one was, that the statements in regard to the
elevation of Denver are so conflicting, as given
by the various authorities, that I did not feel
as if the station was well enough determined
to be of great use to me; & another reason,
was that they were all so excited there
about railroad matters, that I could get no
one to pay any attention to my affairs. Even
the Byers was so excited on the subject of
the new railroad that I felt doubtful if he
would give much heed to the observations.
Next spring I hope the circumstances will
be more favorable; but I shall have to
then & devote considerable time to the
matter in order to effect the necessary
arrangements. I hope also to be able to
clear off the difficulties with regard to
the altitude of Denver & Georgetown.

Very truly
Yours
J. D. Whitney

My dear Sir:

Will you favor me with St Gilder's
of you on Henry? I am collecting ma-
terial for Dr. Pedersen, for use in prepa-
ring 11 new edition of "Bossaroffs Handwörte-
buch der Exacten Wissenschaften" - Hence the inquiry.

Am't best respects

When you received the
second volume of the California
Botany from the Watsons.
